- Leverage Prism content for marketing and sales efforts and events

2026 Prism Reports

In 2026, The Prism Project continues its mission to illuminate the evolving biometric and digital identity landscape—where privacy, trust, and innovation converge. For 2026, our publishing program will feature two **Full Spectrum Prism Reports** and up to three new **Focal Point Reports**, providing comprehensive insight into the global digital identity ecosystem.

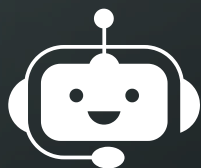

Full Spectrum Reports

The Full Spectrum Prism Reports remain the cornerstone of The Prism Project's annual series, offering comprehensive, data-rich analysis and vendor evaluations. The 2026 reports will include the 4th annual Flagship Prism Report and a 2026 update of the original Financial Services Prism Report.

Focal Point Reports

New for 2026, Prism Focal Point Reports represent a next-generation extension of The Prism Project's analytical ecosystem—shorter sharper and strategically targeted to high-impact markets. Each report provides an intensive exploration of a single identity segment, technology domain, or use-case cluster, blending data-driven analysis with strategic insight, laser focused on a limited number of vendors.

New for 2026

Focal Point Prism Reports

New for 2026, Prism Focal Point Reports represent a next-generation extension of The Prism Project's analytical ecosystem—shorter sharper and strategically targeted to high-impact markets. Each report provides an intensive exploration of a single identity segment, technology domain, or use-case cluster, blending data-driven analysis with strategic insight, laser focused on a limited number of vendors.

Focal Point Report Options*

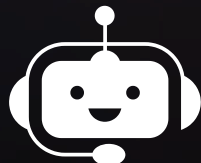

Only 2-to-3 Focal Point Reports will be published in 2026, Focal Point sponsorship opportunities are therefore limited and will be allocated on a first come, first served basis selected from the following list:

- **Gaming** – Identity both online and in-house for gambling and sports betting.
- **Mobile/Telecom** – Connecting people to their devices and services they enable.

- **Decentralized Identity** – Emerging privacy-first ecosystem for identity sovereignty.
- **Enterprise AI Applications** – Weaving human identity and accountability into the AI powered enterprise.

- **Arenas and Stadiums** – Seamless fan experience and operational efficiency anchored by biometric identity.
- **Border Control** – Enhanced border facilitation, including touchless processing and biometric corridors.

*Additional Focal Point Reports may be commissioned on sponsor selected topics for Exclusive or Limited Sponsorships only.
